

SPEED GATES WITH INTEGRATED SYSTEMS TO DETECT SYMPTOMS OF VIRUS

FACE RECOGNITION WITH INFRARED TEMPERATURE DETECTION

EA Group (UK) Ltd. offers a special solution for authorizing access depending on a persons state of health. More specifically such a system limits access of people which suspected disease symptoms such as a high temperature.

EA Group (UK) Ltd. can install speed gates with a special integrated authorization system that can perform facial identification and monitors body temperature.

Such a solution can be widely used in public places such as hospitals, commercial offices, shops and leisure facilities etc.

ENTRY IS ALLOWED

ENTRY IS FORBIDDEN
(abnormal temperature, no mask wearing etc.)

HIGH-PRECISION INFRARED TEMPERATURE DETECTION SENSORS

Fast non-contact automatic body temperature detection.
Range 30-45 (± 0.3).
Distance 0.2 - 0.7 m.
Live temperature on display monitoring.
Abnormal temperature alarm or deny access.

DYNAMIC FACE RECOGNITION

Fast face identification less then 0.2s.
Unique face recognition algorithm to accurately recognize face with a mask.
Mamory 3000 faces and 1 000 000 logs.

5" DISPLAY + TOUCH SCREEN

Capacitive touch screen for easy configuration at standalone mode.
Bright TFT display with live face, name, temperature monitoring.

ATTENDANCE FUNCTION

Support network connection LAN/WiFi with free software and USB flash drive detailed temperature. detection record and attendance reports for standalone mode.

COMMUNICATION METHOD

Ethernet TCP/IP, WiFi, USB, Wiegant.

FEATURES:

- Contactless temperature control – allows to control access of people with abnormal temperature.
- Equipped with audio module (siren) – in case of detection of person with abnormal temperature.
- Face recognition of a person with mask on face.
- Alarm in case of mask absence on face;
- Readymade solution that does not require special provision for installation and can be mounted in any place with help of universal mounting plate.
- Free software – work hour counter + monitors of body temperature per employee.
- Materials: SS 304 (optionally SS 316) IP54 protection for easy disinfection

ADVANTAGES

FACE AND MASK
RECOGNITION

MASK WEARING
REMINDING

NON CONTACT,
SAFE FROM INFECTION

50K FACE
DATABASE

IR TEMPERATURE
DETECTION

TEMPERATURE RANGE:
35°C - 42°C
ACCURANCY 0.3°C

ALARM FOR
ABNORMAL
TEMPERATURE

APPLICABLE TO
MULTIPLE
SCENARIOS

TECHNICAL SPECIFICATION

TF-R19T Temperature Detection Face Recognition System

Case materials	Plastic shell, metal back plate
CPU processor	4 Core 1.2G
RAM	4G DDR3
ROM	32G eMMC
Camera	Pixel HD colorful camera
	Infrared camera
	Thermal imaging camera
Fill light	High light. LED fill light
	Dual infrared high power fill light
Display screen	5" capacity touch screen
Screen resolution	854*480
Keypad	Touch virtual keypad
Communication method	TCP/IP, WiFi, USB PEN DRIVE
FRR	$\leq 0.1\%$
FAR	$\leq 0.001\%$
Product size	154mm*152mm*22mm
Power supply	DC 12V, 2A
Working temperature	15°C to 60°C
AE	LINUXS System
Language	English
User ID capacity	3000
Face capacity	3000
User record capacity	1 000 000
Identification type	Dynamic face recognition
Identification display	Person name & number
Face recognition time	Less than 0.2s
Intelligent function	Infrared live person identification detection
Face Recognition distance	0.5-1.0 m
Temperature detection distance	0.2-0.7 m
Temperature detection error	± 0.3 °C
Temperature detection unit	0.1 °C

TF-R19T Temperature Detection Face Recognition System
